Experience

Product Designer **Atlassian**

Nov 2023 - Apr 2024 (6 months)

Designed an AI feature for 10M+ users to make project planning 68% faster within B2B SaaS project management software Jira, featured in [Atlassian's Team '24 keynote video](#).

Designed screens, coded animations, built interactive prototypes in code, conducted user interviews, and curated high-quality AI model training data. This was a 6 month secondment role.

Software Engineer **Atlassian**

Jul 2020 - Feb 2025 (4 years 8 months)

Full stack engineer building interfaces and improving performance.

Project

FreshFold **Laundry app**

Designed a B2C laundry mobile app after noticing that most existing apps in the Indian market function mainly as pickup booking tools. Created its design system and flows for item selection, checkout, and order tracking, then [built an interactive prototype in code using AI](#).

Education

B.E. Information Science

2016 - 2020 (R.V. College of Engineering, Bengaluru)

Relevant coursework: Human computer interaction (HCI)

Skills

UX design
Interaction design
